DRIFT[®] HD GHOST

BUILT IN EVERYTHING

Completely re-designed and re-engineered from the ground up, the Drift HD Ghost is the most advanced self-contained POV camera in its class. At its core is a new engine producing crystal clear 1080p HD video and brilliant 11MP still photos. The new larger 2" LCD screen covered in Gorilla Glass[®] makes sharing your vision even easier with an updated user interface and exceptional new features like continuous loop style recording found in Video Tagging.

Built-in Wi-Fi connects your Drift HD Ghost to your iPhone or Android mobile phone with our free app (coming soon) giving you amazing control over your camera from 100m (300ft) away. Designed to preview and line up a shot remotely and combined with the ability to change settings on your camera and review/download content directly to your mobile device, this is easily one of the most advanced POV mobile apps ever.

The Drift HD Ghost comes standard with a rechargeable two-way remote control allowing changes between modes, while displaying recording status. One remote can control multiple cameras at the same time with 'One To All' mode.

>> 1080p @ 25, 30 FPS / 170°, 127°, 90° FOV
 >> 960P @ 25, 30, 48, 50 FPS / 170° FOV

DRIFT[®]HD

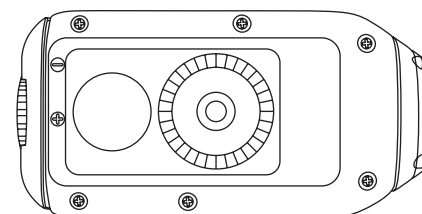

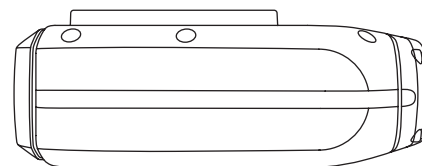

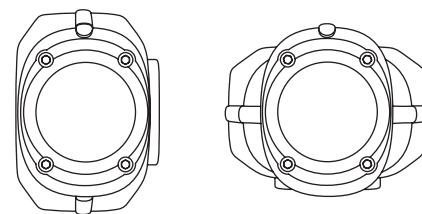

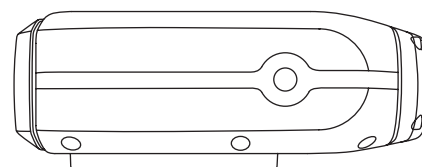

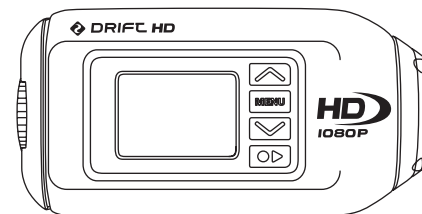

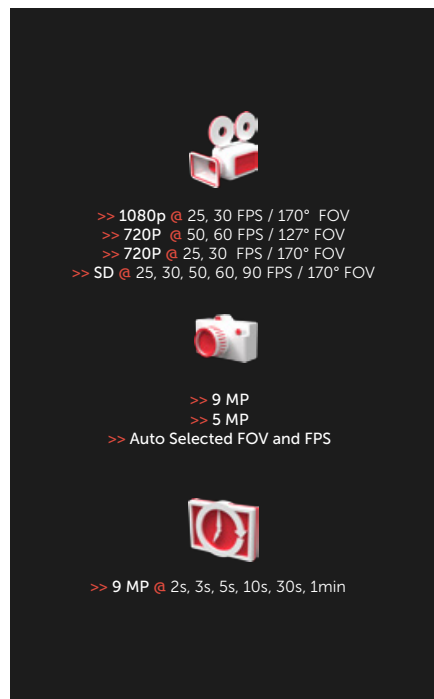

PROFESSIONAL HD ACTION CAMERA

We have carefully designed the Drift HD package as an all-in-one solution, allowing you to shoot in virtually any situation without having to purchase extra equipment apart from a micro SD card.

The Drift HD comes with a wireless RF (radio frequency) remote control to allow easy, remote operation of the camera. It can be used both to record video and to take photos. The LCD screen allows for live preview; ensuring accurate positioning to get the best possible shot, video and photo playback and a user friendly interface.

With a range of shooting modes and user friendly features; the compact, durable, easy-to-use Drift HD camera is great for capturing all the action.

The Drift HD camera and remote weigh a combined 139g.

- >>1080P HD Video

UNIVERSAL DRIFT ACCESSORIES

SHOULDER MOUNT

The Drift Shoulder Mount is the perfect accessory for capturing your point of view when the action goes down. The shoulder mount is fully adjustable to suit all sizes and is compatible with all Drift cameras. Great for snow, motor, skate: any sport where you want to get a unique first person perspective without following the movement of your head. The shoulder mount is a great alternative to helmet mounting.

30-015-00 · ALL CAMERAS

TIMELAPSE

The Drift TimeLapse allows you to capture photo TimeLapse sequences and is enabled to rotate 360° in 60 minutes perfect for capturing all the action, whether up in the mountains or down on the beach.

30-014-00 · ALL CAMERAS

POWER PACK

Super high capacity polymer li-ion battery. Power and charge your Drift camera for up to 20 hours in one go. Great for iPad, iPhones, and iTouch as well. Also includes adaptors to charge your mobile phone, MP4, MP3 and game player, PDA, etc. Rechargeable more than 500 times.

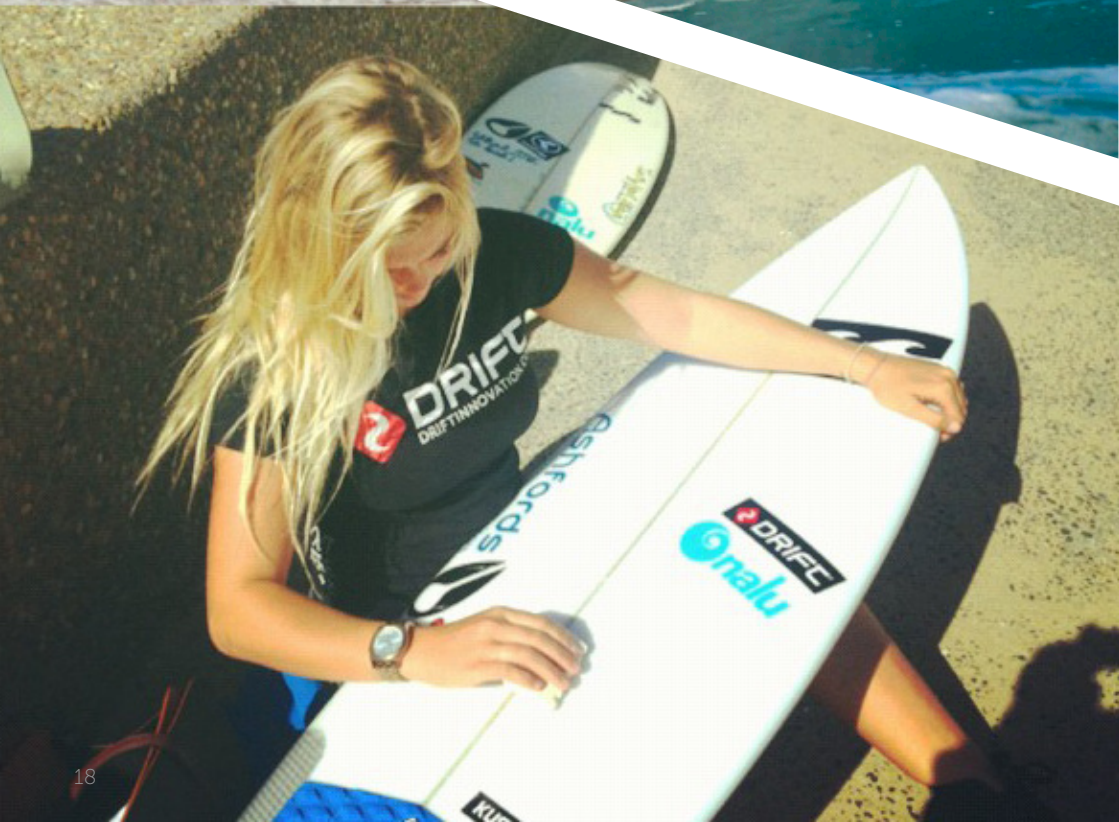

71-001-03 · (EU) ALL CAMERAS

71-001-01 · (US) ALL CAMERAS
71-001-02 · (AUS) ALL CAMERAS

FLAT SURFING MOUNT

Giving you the ability to record while carving waves, the flat surf mount uses a flexible thin base surrounding a strong, secure mounting point for the pivot shoe. Using adhesive 3M VHB, the Drift camera will stay securely attached to the board should any incidents occur.

30-013-00 · ALL CAMERAS

FCS SURFING MOUNT

Connect your Drift camera to any surfboard equipped with a Fin Control System (FCS) plug. The Drift surf tether point is also included to ensure you never lose your camera whether you're towing in at Teahupoo or surfing your local beach break.

30-010-00 · ALL CAMERAS

HANDLEBAR MOUNT

Designed to handle heavy riding utilising the Drift universal clip design. The Drift Handlebar mount is a secure way to mount your Drift camera to any bar from 0.74"(1.9cm) to 1.4"(3.6cm).

30-011-00 · ALL CAMERAS

ROLLBAR MOUNT

This accessory gives you the ability to attach your Drift camera to a roll bar with measurements 1.4"(3.6cm) to 2.5"(6.3cm). It is also perfect to connect to alternative bars such as bike frames and go karts.

30-012-00 · ALL CAMERAS

SUCTION MOUNT

This improved version is 50% lighter while retaining the industrial strength of its predecessor, it can be fitted to any non-porous surface such as a car, windscreen or bike.

The new design has reduced vibration and added ability to be set to a lower profile for that perfect shot.

30-007-00 · ALL CAMERAS

ADHESIVE MOUNT KIT

A perfect accessory for mounting your Drift camera to any nonporous, flat or curved surface. Uses 3M self-adhesive pads (included). This kit includes a universal clip, 1 flat adhesive mount and 1 curved adhesive mount.

30-003-01 · ALL CAMERAS

FLAT ADHESIVE MOUNTS

A perfect accessory for mounting your Drift camera to any nonporous, flat surfaces. Uses 3M self-adhesive pads (included). This kit includes 5 flat adhesive mounts.

30-016-00 · ALL CAMERAS

CURVED ADHESIVE MOUNTS

A perfect accessory for mounting your Drift camera to any nonporous, curved surfaces. Uses 3M self-adhesive pads (included). This kit includes 5 curved adhesive mounts. Perfect for full helmets.

30-017-00 · ALL CAMERAS

GOGGLE MOUNT

The new Drift goggle mount has been designed to attach firmly to the goggle straps against the side of the head. The rubber base grips help increase camera stability giving you smoother video footage.

30-006-00 · ALL CAMERAS

PICATINNY RAIL MOUNT

Attach your Drift camera to a standard Picatinny rail (MIL-STD-1913 rail, STANAG 2324 rail or "tactical" rail) on your gun or rifle.

30-004-00 · ALL CAMERAS

CARRY CASE

Great for storing your Drift HD and Drift HD Ghost. It has space for your remote control, spare battery, memory cards and your USB or HDMI cables.
